Product No.: 97056

Description

Activated-carbon filter extension kit

The extension set consists of an additional housing and a filled activated carbon cassette.
The additional extension set housing is installed in the TEKA filter system at the factory, increasing the system height by 270 mm.
The housing is equipped with an activated carbon cassette 610 x 610 x 100 mm including 14 kg of standard activated carbon bedding.

Properties

Weight (kg):	15
