ALSIDENT Suction arm, 50 mm, antistatic

The suction arm made of chromated aluminum tubes (TCP) and 2 joints of shatterproof and static conducting polypropylene has been developed for the local exhaust in sensitive, antistatic ESD-areas. Therefore the suction arm is mounted with an earthing wire with a resistance of 1M-Ohm.

Through its self-sustaining construction, the suction arm is easy to use and easy to adjust in its position.

The installation is quickly and easily. It is easy to disassemble the arm and reassemble it after cleaning without the need for tools. Using high quality materials ensures durability and low maintenance.

The extraction arm is equipped with a regulating damper to open/close.

Properties

Mounting type:	Tischmontage
Number of joints:	2
Length (mm):	545
Weight (kg):	1.75
Diameter (mm):	50
Joints colour:	schwarz
Version:	antistatisch
