Product No.: 56120

Description

Welding training bench

The **TEKA welding training bench** is a sturdy welding table made of profile steel for industrial companies as well as training and education centres. Welding is done either on a bar grate or on firebricks. This wide version offers plenty of work surface for larger workpieces.

At a glance

- **Construction:** sturdy welded profile steel
- **Work surface:** bar grate and firebricks
- **Equipment:** drawer included as standard
- **Assembly:** simple to assemble

Your benefits

- **Made for training:** With the optional forced-position welding fixture, welding exercises can be carried out in different positions.
- **Flexible work surface:** Depending on the task, you weld on the bar grate or on the firebricks.
- **Robust:** The sturdy welded construction is built for everyday use in workshops and training workshops.
- **Quick to set up:** The table is easy to assemble.

Applications

Training and education centres, apprentice workshops and industrial companies.

Options

Forced-position welding fixture, special dimensions on request.

The welding table is available in three widths; see the Properties tab for dimensions. Our overview page shows suitable systems for welding fume extraction at the welding workstation.

Properties

Width (mm):	1,200
Depth (mm):	635
Height (mm):	800
Colour:	RAL 7016
