Product No.: 56130

Description

Welding fixture

Forced Position Welding Device – The Perfect Addition to the TEKA Training Welding Table

The **Forced Position Welding Device** is the ideal complement to the **TEKA Training Welding Table**, enabling realistic welding training under practical conditions. Specifically designed for training and welding examinations, it allows precise work in various forced positions – a crucial requirement for welder qualifications according to common standards.

With stable workpiece fixation and flexible adjustment to different positions, the device ensures safe and controlled welding guidance. Its robust construction guarantees a long service life, while the ergonomic design facilitates the training process.

This welding device allows trainees and examinees to refine their skills under realistic conditions and effectively prepare for demanding welding tasks.

Take your welding training to the next level now!

Properties

Width (mm):	38
Depth (mm):	555.2
Height (mm):	815.2
Colour:	RAL 7016
