Suction crane

(Page: 1 for product 97640)

Description

Suction crane

Due to the two part supporting construction it is possible to attach tools.

At the first outrigger, you can attach charges up to a weight of 50 kg (e.g. a mechanical wire travel). The second outrigger can be charged with up to 10 kg (e.g. tube package).

The internal construction of the telescopic arm allows a continuous regulation at every height.

Properties

Length (mm):	3,000
Weight (kg):	65
Diameter (mm):	150
