Product No.: 97651

Description

Suction crane

The **TEKA extraction crane** captures gases, fumes, vapours and dust at specific points directly at the workstation. It is wall-mounted and connected to individual fans or central systems.

At a glance

- **Supporting structure:** swivelling, powder-coated steel profile with two-part boom
- **Capture:** continuously telescopic extension with extraction hood on the front boom
- **Joints:** adjustable brakes, easy to readjust from the outside
- **Mounting:** wall bracket with pipe bend and rotary flange

Your benefits

- **Hang up tools:** A wire feeder case or a compressed-air tool, for example, can be hung on the boom. This keeps the floor clear and reduces the risk of accidents.
- **Any height:** The telescopic section can be adjusted continuously to any height.
- **Flexible connection:** Flexible hoses connect the extraction pipes at the joints.

Options

Start-stop automatic, lighting kit for the extraction hood, high-temperature hoses, spark guard.

The operating instructions are available in the Downloads tab. All versions are shown in our overview of extraction cranes. Free shipping.

Properties

Length (mm):	6,000
Diameter (mm):	250
