Product No.: 66210

Description

Adapter for extraction hood; diam.: 150

The adapter for extraction hood; diam.: 150 is the ideal addition for PVC extraction hoods, ensuring highly efficient capture of smoke, dust, and fumes. With its optimized design, the airflow is directed precisely to the emission source, significantly improving extraction performance.

Whether for welding fume extraction or dust removal in industrial processes – with this adapter, you increase the efficiency of your extraction system and create a clean, safe working environment.

Its robust construction from durable materials guarantees a long service life and high reliability, even under the most demanding conditions. The adapter is therefore the perfect solution for companies that rely on effective air purification.

Properties

Shape:	angular
Width (mm):	300
Depth (mm):	360
Colour:	black
