

The air purifiers

TEKA

Wet - separator

(Page: 1 for product 20035001502)

Description

Product No.: 20035001502

€28,165.00*

excluding VAT

Wet - separator

The advantages of the unit are its simple and trouble-free operation. Pumps or jets which could create troubles are not used. The air is cleaned by swirling the dust with water. The particles in the air flow are enclosed by water and bonded. The extracted dust particles depose in the lower water tank and can be discharged by the ball valve which is installed at the lowest position of the unit and can be extracted through a maintenance flap. The fan is suitable for continuous operation and is placed onto the unit by standard.

Properties

max. pressure [Pa]:	2.700
Engine power (kW):	11,0
Supply voltage (V):	400
Connection frequency [Hz]:	25
Current consumption (A):	20,4
Separation efficiency [%]:	> 80
Sound level [dB(A)]:	ca. 74
Width [mm]:	1.550
Depth [mm]:	1.760
Length [mm]:	3.320
Colour:	RAL 7016
