Product No.: 662000003

Description

Exhaust ventilation hood for suction arm diam. 150

The PVC suction hood for extraction arms and hoses NW 150 mm ensures reliable capture of fumes, dust, and particles directly at the source. Equipped with an integrated throttle valve, the airflow can be precisely adjusted to perfectly match the requirements of each working process.

An additional built-in spark protection grid enhances safety during daily use by reliably retaining sparks and protecting downstream filter and extraction systems.

Made of durable black PVC plastic, the hood stands out for its high resistance and long service life. With an opening of **270 x 250 mm**, it provides a wide capture area suitable for various applications in workshops, craft enterprises, and industrial environments.

Specially designed for connection to extraction arms and hoses with a nominal width of **150 mm (NW 150)**, the hood can be installed quickly and easily. It is the ideal solution for users who rely on clean air, workplace safety, and dependable extraction technology.

Properties

Diameter (mm):	150
