Product No.: 10372

Description

Protection grille (finely woven) for installation

Round / fine-mesh spark guard for extraction hoods

To prevent extraction systems from catching fire due to flying sparks, the round spark guard is the ideal addition to extraction hoods: Thanks to its fine-mesh construction, it safely catches even the smallest sparks and thus ensures safe working even in applications that generate sparks.

The grille is universally suitable for extraction hoods with a diameter of **NM 150 mm and 200 mm** and is easy to install. Thanks to the high-quality workmanship, the spark guard is particularly durable and temperature-resistant. Perfect for workshops, industrial plants and all work environments where flying sparks pose a potential risk.

Advantages:

- Fine mesh design for maximum protection against flying sparks
- Compatible with extraction hoods in diameters **NM 150 mm and 200 mm**
- Easy to install and highly durable
- Ideal for workshops and industrial applications

Matching extraction arms can be found on our overview page.

Properties

Material:	fine-mesh metal mesh
Diameter (mm):	246
