Product No.: 254030

Description

ALSIDENT suction cabinet type 3, white

The top section, a System 75 square bonnet, is loosely attached to the sides. The sides are made of powder-coated steel with a non-slip strip at the bottom.

The cabinet is supplied with a flange, two spigots and a joint with a damper to enable quick and easy connection to the exhaust duct. At the same time, it is possible to interrupt the air flow at the cabinet using a joint with a damper. With its large opening, this cabinet is particularly suitable for processes such as mixing, measuring or weighing on a smaller scale.
The cabinet is also designed for mixing tasks in hairdressing salons.

Properties

Width (mm):	420
Depth (mm):	320
Height (mm):	515

Accessories

ALSIDENT Reducer 100 mm - 75 mm, white

Product No.: 410075
