Product No.: 80001920710

Description

Sparktoo

The sparktoo spark pre-separator is made for installation in piping systems.

He serves as an additional tool for protection against fire and he is therefore an inexpensive protection system.

This spark pre-separator reduces to a high degree the risk of fire in the filter unit through minimization of the sparks, which could reach the filter system via the piping.

The effectiveness of the spark pre-separator is based on the simple principle of interrupting the air flow to cool down and extinguish sparks before they reach the filter system.

Easy and quick installation and cleaning. The spark pre-separator is easy to remove and to clean.

It's not necessary to calibrate the spark pre-separator by a service technician.

Properties

Length (mm):	1,185
Weight (kg):	39
Height (mm):	1,150
Diameter (mm):	710
