Product No.: 66200

Description

Exhaust ventilation hood diam. 150 mm

The suction hood for extraction arm **NW 150** ensures efficient and reliable capture of fumes, dust, and particles directly at the source. Equipped with an integrated throttle valve, the airflow can be adjusted individually to perfectly match your working process.

Made of durable black plastic, the hood is designed for long-lasting performance in daily use. With an opening of **270 x 250 mm**, it provides a wide capture area for various applications.

Specially developed for connection to extraction arms with a nominal width of **150 mm (NW 150)**, the hood can be installed quickly and easily. It is the ideal solution for workshops, industrial environments, and craft businesses that rely on clean air and dependable extraction technology.

Properties

Diameter (mm):	150

Accessories

Protection grille (finely woven) for installation

Product No.: 10372
