# Fan 6.000 m<sup>3</sup>

(Page: 1 for product 961074)

## Description

Product No.: 961074

**€3,480.00\***

excluding VAT

# Fan 6.000 m<sup>3</sup>

The stable sheet steel construction qualifies the fan for continuous application.  
The fan has a high negative pressure of 3000 Pa even at high load.

In delivery a set of vibration dampers to reduce vibrations and a transition piece from rectangular to round (DN 355) is included.

## Properties

|                                      |                                                                                                   |
|--------------------------------------|---------------------------------------------------------------------------------------------------|
| Intake manifold (mm):                | NW 355                                                                                            |
| Volumetric flow (m <sup>3</sup> /h): | 6.000                                                                                             |
| max. pressure (Pa):                  | 3.000                                                                                             |
| Engine power (kW):                   | 5,5                                                                                               |
| Supply voltage (V):                  | 400                                                                                               |
| Connection frequency (Hz):           | 50                                                                                                |
| Current consumption (A):             | 11,5                                                                                              |
| Ausblas:                             | NW 355                                                                                            |
| Sound level (dB(A)):                 | 78                                                                                                |
| Weight (kg):                         | 100                                                                                               |
| Width (mm):                          | 740                                                                                               |
| Depth (mm):                          | 770                                                                                               |
| Height (mm):                         | 720                                                                                               |
| Version:                             | Stahlblechgehäuse inkl. Schwingungsdämpfer und PTC<br>Temperaturfühler zur Überwachung des Motors |
