Telescopic suction arm, diam.100mm

The telescopic suction arm is extensible from 1.20 to 2.06 m in its length and fitted with a metal hood with built-in throttle. Due to the little space required, they are optimally appropriate to be applied in training and education centres. The version fitted with external joints guarantees a fume extraction with considerably lower fan performance. This reduces the noise level.

Properties

Length (mm):	1.200 - 2.060
Diameter (mm):	100
