ALSIDENT extraction arm, NW 75, antistatic

(Page: 1 for product 75655536)

Description

ALSIDENT extraction arm, NW 75, antistatic

The extraction arm has been specially developed for use in aggressive environments. The pipes and joints are made of impact-resistant, conductive, chemically resistant polypropylene. The threaded rods, springs and finger screws are made of acid-resistant stainless steel.

Thanks to its self-supporting design, the extraction arm is easy to handle and can be easily repositioned.

Installation is quick and easy. The extraction arm can be dismantled and reassembled without tools for cleaning.

The use of high-quality materials ensures a long service life and low maintenance.

The extraction arm is equipped with a control flap for opening/closing as standard.

Properties

Mounting type:	Wall or ceiling mounting
Number of joints:	3
Length (mm):	1,230
Weight (kg):	2
Diameter (mm):	75
Joints colour:	black
Version:	anti-static

Accessories

Ceiling column; connection at the side
Product No.: 275080

Ceiling column, white, System 50
Product No.: 225020

Suction hood, flat, antistatic version
Product No.: 17533246

Ceiling column; connection at the side
Product No.: 2100080

Extractor tube, anodised alu, diam. 75,
antistatic
Product No.: 175256
