ALSIDENT Suction arm, 100 mm

(Page: 1 for product 1005525)

Description

ALSIDENT Suction arm, 100 mm

The suction arm made of anodized aluminum tubes and 2 smooth polypropylene joints is designed for source extraction without special demands on chemical resistance or the conductivity. Due to the self-supporting structure of the suction arm is easy to use and easy to position. Installation is quick and easy. For cleaning the suction arm can be disassembled and assembled without tools. The use of high quality materials ensures a long service life and low maintenance. The suction arm is fitted with an adjusting damper for opening / closing.
