Product No.: 5037211236

Description

ALSIDENT Suction arm, 50 mm, flexible

Tubes and extractor tube are made of chromated aluminum, the connection and the joints of shatterproof and static conducting polypropylene and the flexible hose of conductive plastic. The suction arm has been developed for the local exhaust in sensitive, antistatic ESD-areas. Therefore the suction arm is mounted with an earting wire with a resistance of 1M-Ohm. An internal spring gives this suction arm a self supporting construction and it has a very high flexibility. By turning the flexible hose it can be tighten up in order to maintain the position. The extraction arm can be mounted directly through the table or with a table bracket for a mobile installation. The installation is quickly and easily. It is easy to disassemble the arm and reassemble it after cleaning without the need for tools. Using high quality materials ensures durability and low maintenance. The extraction arm is equipped with a regulating damper to open/close.

Properties

Mounting type:	Table mounting
Number of joints:	2
Length (mm):	900
Weight (kg):	1.2
Diameter (mm):	50
Farbe Gelenke:	black
Ausführung:	aluminium

Accessories

Table bracket, black, DN 50 mm
Product No.: 25010050
