Gross filter set for filtoo, ViroLine and AirToo

Set of 10 coarse filters - high-quality replacement filters for clean air

Ensure efficient filtration and optimum air quality with the set of 10 coarse filters from TEKA. These high-quality filter mats of filter class ISO 16890 ePM coarse > 45% are specially designed for industrial extraction systems and ensure reliable pre-filtration of coarse particles.

Product details:

- ? Effective filtration - ideal for separating coarse dust particles
- ? Dimensions: 490 x 490 x 20 mm (W x D x H)
- ? High-quality material - Durable and efficient
- ? Easy installation - quick replacement for consistently high filter performance
- ? Scope of delivery: 10 pieces per packaging unit

Advantages of our coarse filters:

- Extends the service life of the main filters through pre-filtration
- Improves the air quality in work areas
- Reduces maintenance costs thanks to reliable dirt separation

Whether for workshops, production facilities or other industrial applications - keep your extraction system in top form with these replacement filters?
