

The air purifiers

TEKA

Activated carbon filter

Description

Activated carbon filter

Activated Carbon Filter – Effective Absorption of Pollutants and Odors

The **activated carbon filter (Article No. 978006)** from TEKA ensures reliable air purification in extraction systems. With its highly porous structure, it effectively binds gases, vapors, and odors, significantly improving air quality in work environments.

Product Details

- **Specifically designed** for industrial extraction systems
- **Dimensions:** 484 x 484 x 20 mm (Width x Depth x Height)
- **High absorption capacity** for gases and pollutants
- **Packaging unit:** 1 piece
- **Easy installation** and quick replacement

Advantages

- Reduces harmful vapors and unpleasant odors
- Improves air quality in workshops and industrial facilities
- Durable filter material for high efficiency

This activated carbon filter is ideal for workplaces where solvent vapors, smoke, or other gaseous pollutants are present. It helps minimize health risks and ensures clean, safe air.

Properties

Width (mm):	484
Depth (mm):	484
Height (mm):	20
