Description

Product No.: 75655516

ALSIDENT extraction arm, NW 75, antistatic

The extraction arm has been specially developed for use in aggressive environments. The pipes and joints are made of impact-resistant, conductive, chemically resistant polypropylene. The threaded rods, springs and finger screws are made of acid-resistant stainless steel.

Thanks to its self-supporting design, the extraction arm is easy to handle and can be easily repositioned.

Installation is quick and easy. The extraction arm can be dismantled and reassembled without tools for cleaning.

The use of high-quality materials ensures a long service life and low maintenance.

The extraction arm is equipped with a control valve for opening/closing as standard.
