ALSIDENT Suction arm, 100 mm, antistatic

The extraction arm made of chemically resistant polypropylene pipes and 3 smooth-running joints as well as the POP rivet made of acid-resistant stainless steel was specially developed for use in sensitive ESD areas and areas with potentially explosive atmospheres.

Thanks to its self-supporting design, the extraction arm is easy to handle and can be easily repositioned.

Assembly is quick and easy. The extraction arm can be disassembled and reassembled without tools for cleaning.

The use of high-quality materials ensures a long service life and low maintenance requirements.

The extraction arm is equipped with an opening/closing control flap as standard.

Properties

Mounting type:	Wand- oder Deckenmontage
Number of joints:	2
Length (mm):	795
