TEKA filtoo – Compact Extraction Solution with 4-Fold Power

The **TEKA filtoo** is the ideal entry-level solution for businesses where clean air in the workplace is essential. Whether in workshops, small production facilities, or craft businesses – this mobile extraction and filtration system efficiently ensures clean air while offering maximum flexibility.

Your Benefits at a Glance:

- **Space-Saving & Flexible:** Thanks to its compact design and smooth-running industrial casters, the filtoo can be easily used at different workstations. Perfect for workshops with limited space.
- **Cost-Efficient:** The filtoo impresses with low acquisition costs and an excellent price-performance ratio. Ideal for small businesses that don't want to compromise on quality.
- **Energy-Efficient:** The powerful fan operates with high energy efficiency, reducing operating costs without compromising performance.
- **Easy to Use:** Intuitive controls, quick start-up, and minimal maintenance effort ensure you can stay focused on your work.

Efficient Filtration Technology for Maximum Air Purity

The TEKA filtoo features a **four-stage filtration system** with a separation efficiency of over 99%. The system combines pre-filters and coarse filters with an activated carbon filter and a main filter (ISO 16890 ePM1 - 80%). This effectively removes even the finest particles, fumes, and pollutants from the air. With an air capacity of up to 1,600 m³/h, the filtoo handles demanding applications effortlessly. Despite its powerful performance, it remains pleasantly quiet with a noise level of around 72 dB(A), making it suitable for noise-sensitive environments.

An integrated **filter monitoring system** (acoustic, optical, and electronic) provides additional safety by indicating when a filter change is necessary. The unit's mobility is enhanced by robust casters, allowing flexible use in various workplaces.

Ideal for:

- Welding stations
- Grinding and soldering tasks
- Workshops and craft businesses
- Small to medium-sized production environments

Bring fresh air into your workshop and invest in clean air for a healthier work environment.

Discover now how the TEKA filtoo can improve your working conditions!

Properties

Volumetric flow (m³/h):	1.600
max. pressure (Pa):	1.800
Engine power (kW):	1,1
Supply voltage (V):	230
Connection frequency (Hz):	50
Current consumption (A):	7,0
Current type:	1Ph+N+PE
Sound level (dB(A)):	72
Weight (kg):	80
