## NANNOX P50

Art. Nr./Art. No. 68130000400 VE/PU 400 g

DE

Durch das Beschichten wird die Standzeit der Filterpatronen deutlich erhöht und deren Abreinigungseigenschaft wesentlich verbessert. Zum Beschichten von Filterpatronen werden pro m<sup>2</sup> Filterfläche ca. 10 g des Filterhilfsmittels benötigt.

EN

Coating significantly increases the service life of the filter cartridges and significantly improves their cleaning properties. To coat filter cartridges, approx. 10 g of filter aid is required per m<sup>2</sup> of filter surface.

*Description*

# Cartridge protection NANNOX P50

Because of the coating, the lifetime of the filter cartridges will be significantly increased and the cleaning properties improved.

To coat the filter cartridges, 10 g of the cartridge protection for each m<sup>2</sup> is needed.
